In re: Burken Broadcasting, LLC  
KRLV(AM), Las Vegas, NV  
Facility Identification Number: 40756  
File Number: BP-20091117AAL

Dear Mr. Steiner:

This letter refers to the above-captioned minor change application to change the transmitter site and antenna system for Class C station KRLV(AM).

A preliminary review of the application reveals that the proposed nighttime facility will increase the existing 14.8 mV/m limit towards co-channel Mexican stations XEAA1 and XEEE Mexicali, BN, in violation of the US/Mexican Agreement. Questions concerning the protection to these Mexicans should be directed to George Fehlner of the IB at (202) 418-2197. In addition, the antenna height on FCC Form 301 must be amended to round off to the nearest tenth of a degree as required by Section 73.150 of the Commission's rules.

Further action on the subject application will be withheld for thirty (30) days from the date of this letter. Failure to respond or submit an amendment within that time period will result in the dismissal of the application pursuant to Section 73.3568 of the Commission's rules.

Sincerely,

Son Nguyen  
Supervisory Engineer  
Audio Division  
Media Bureau
